Editor of *Geomatica*

Jean Thie, Editor of *Geomatica* these last three years, has indicated it is a time for change and will resign effective June, 2011, after completing the first electronic edition. We thank Jean for his ideas and leadership on Council, and his passion in leading *Geomatica* into the next decade, with associate editors for different fields of geomatics, and his determined ideas about advancing the application of geospatial knowledge for the future. He will be missed from our midst.

Thus, a search for a new editor is underway. The role is that of a volunteer who is responsible for coordinating a team of Associate Editors in the reviewing of technical manuscripts and publications by academic and scientific authors for quarterly inclusion into *Geomatica*. The job includes the occasional writing of contributions to *Geomatica*. The Editor is a member of the CIG Publication Committee and a member of CIG Council. This is a unique opportunity to work with a world-class institute representing the science of geomatics. Rédacteur en chef de *Geomatica*

Jean Thie, rédacteur en chef de *Geomatica* au cours des trois dernières années, a indiqué qu'il est temps de changer et démissionnera à compter de juin 2011, après la réalisation de la première édition électronique. Nous remercions Jean de ses idées et de son leadership au Conseil, et de sa passion pour avoir mené *Geomatica* vers la nouvelle décennie, avec les rédacteurs associés des différents domaines de la géomatique, et ses idées bien établies sur l'avancement de l'application du savoir géospatial dans l'avenir. Aucun doute qu'il nous manquera!

Ainsi, nous sommes à la recherche d'une nouvelle personne comme rédacteur en chef. Il s'agit de trouver un ou une bénévole qui sera responsable de la coordination d'une équipe de rédacteurs associés pour l'examen des manuscrits techniques et des publications d'auteurs scientifiques à inclure chaque trimestre dans *Geomatica*. Le travail comprend la rédaction, à l'occasion, de textes contribuant à *Geomatica*. Le rédacteur en chef est membre du Comité des publications de l'ACSG et membre du Conseil exécutif de l'ACSG. Il s'agit d'une possibilité unique de travailler pour une association de renommée mondiale représentant les sciences géomatiques.
