## Geomatics Expo Connects Companies to Students

**Schulich School of Engineering News, University of Calgary—February 5, 2015**—Eager students approached industry professionals to learn about summer jobs, internship and career opportunities at the 18th annual Geomatics Expo. Organized by the Geomatics Engineering Students' Society (GESS), the networking day, held this year in MacEwan Hall on January 29, also serves as a venue to promote geomatics engineering to the wider campus community. With the support of the geomatics engineering department, over 100 Schulich School of Engineering students explored possible industry careers and met with future employers.

This year, more than 30 companies participated in the Geomatics Expo and the event was made possible thanks to student volunteers and industry sponsors.
